Mahagathe App PRD v0.3

Nov 6, 2026 · @Mahagathe

Part A — Summary

The Mahagathe app gives one place for the teachings, practice and activities of the Mahagathe Foundation Public Charitable Trust. The app is small at launch. It grows one vibhaga at a time.

Why the app is different. Ven. Mahāmuni Sritha Mahāgatha is the Seventieth Mahādhibhū of the Rudra Sampradāya of the Mahāpāshupata mata. The app shows this living lineage first. Each teaching in the app has a verified source.

Who uses the app:

- Sādhakas who practise Samatha and the 40-Day Mandala.
- Students and young people in Yuva Chetana and Vidya classes.
- Parents of Bala Chetana children.
- Devotees in India and abroad who want daily guidance.
- Volunteers and donors.

The daily reason to open the app: Samatha practice and the 40-Day Mandala. The daily Guru Vākyam supports this habit.

What V1 contains:

1. A daily Guru Vākyam, as text.
2. One free introductory Samatha practice for all users.
3. Samatha and Dhyānbāri resources for enrolled sādhakas.
4. The 40-Day Mandala with a group count.
5. The Parampara page.
6. Mahabharata episodes as text, written by Mahagathe from the BORI critical edition.
7. An events calendar with registration.
8. A hub page for each vibhaga.
9. Donations by UPI.

What V1 does not contain: video in the app, a pañcāṅga, audio Guru Vākyams, rankings, a parent view and games. Videos stay on YouTube. The app links to them.

Build: React Native, with one codebase for Android and iOS.

Decisions

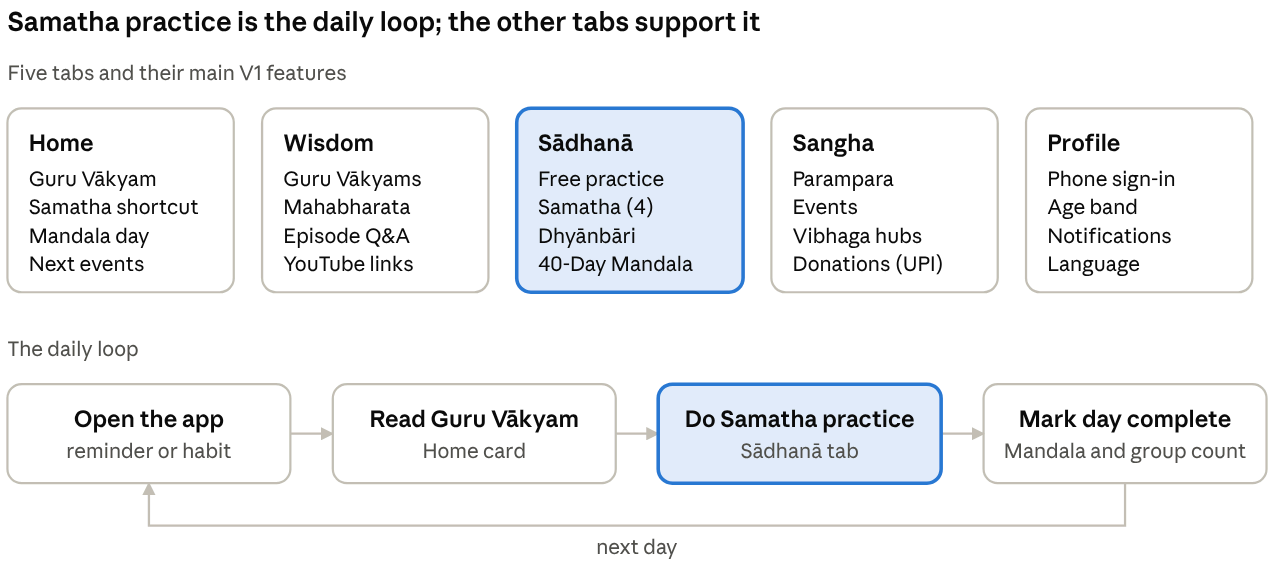

The table shows 12 decided, 8 proposed and 10 open decisions. "Proposed" means a recommendation that needs sign-off. Change the status in the table when the team decides.

ID	Decision	Status	v0.2 ref
D-01	Build with React Native: one codebase for Android and iOS	Decided	DEC-01
D-02	Guru Vākyams are text only in V1	Decided	MAH-14
D-03	The app does not show a pañcāṅga	Decided	—
D-04	V1 has no video in the app. Videos stay on YouTube; the app links to them	Decided	MAH-63
D-05	Mahabharata uses the BORI critical edition only	Decided	MAH-21
D-06	Ramayana uses the Vālmīki Rāmāyaṇa critical edition (Oriental Institute, Baroda)	Decided	MAH-23
D-07	Mahagathe writes its own Itihasa text with BORI citations. The app does not copy the Debroy translation	Decided	MAH-21, 22
D-08	Samatha and the 40-Day Mandala are the main daily habit	Decided	MAH-26–38
D-09	Festivals are P1, not P0	Decided	MAH-13
D-10	Parampara is P0 and links from Home	Decided	MAH-44
D-11	A group count replaces the leaderboard	Decided	DEC-12, MAH-39
D-12	The Bala Chetana parent view and the Yuva Chetana cohort space move to V2	Decided	MAH-46
D-13	Spelling: Guru Vākyam, Bala Chetana, Yuva Chetana, Dhyānbāri, Dhyanodaya	Proposed	MAH-03

ID	Decision	Status	v0.2 ref
D-14	Five tabs: Home, Wisdom, Sādhanā, Sangha, Profile	Proposed	MAH-04
D-15	Sign-in by phone OTP. Guests can read public Wisdom without an account	Proposed	DEC-02
D-16	Collect an age band, not a date of birth. Get guardian consent for users under 18 (DPDP Act 2023)	Proposed	DEC-03
D-17	One hub template for all vibhagas. Each vibhaga head edits their hub	Proposed	new
D-18	Donations by UPI first. Accept foreign donations only with FCRA registration	Proposed	DEC-17
D-19	Define what a "Vedic lesson" is before writing a source rule for it	Proposed	MAH-17
D-20	Mahabharata seasons follow the 18 parvas. Episodes release over time, not all at launch	Proposed	DEC-15, 16
D-21	Content authority and editorial board	Open	DEC-05
D-22	Launch languages (proposal: English, Telugu, Hindi)	Open	DEC-04
D-23	Mandala rules: what counts as a day, what happens on a missed day, which time zone. The teachers decide	Open	DEC-09, 10, 11
D-24	Samatha and Dhyānbāri access level, and who grants enrollment	Open	DEC-07, 08
D-25	80G and FCRA status of the trust	Open	DEC-17
D-26	Beta at Abhyudaya, 20 Dec 2026: go or no-go	Open	new
D-27	Saptagita: a separate app or a module in this app	Open	new
D-28	Success targets for V1	Open	§1.2
D-29	Notification frequency limits and quiet hours	Open	DEC-13

ID	Decision	Status	v0.2 ref
D-30	V2 text: Shiva Purāṇa or the Pāśupata texts first	Open	MAH-65

App map and daily flow

app map · 5 tabs and the daily loop

The Sādhanā tab holds the daily habit. Home points to it, Wisdom gives the reading, and Sangha connects users to events and the vibhagas. The five tabs are proposed in D-14.

Release plan

The app releases in four steps. Each step adds a small set of features. Do not start a step before the previous step is stable.

1. **Beta at Abhyudaya, 20 Dec 2026.** Make this release only if a developer is already engaged (D-26). It contains the daily Guru Vākyam (text), one free Samatha practice, the events calendar with registration, and UPI donations. Six weeks is a short time. A web app can be the safe option for this date.
2. **V1, about three months after the beta.** It adds the Parampara page, Samatha and Dhyānbāri for enrolled sādhakas, and the 40-Day Mandala with a group count. It also adds Mahabharata season 1 (Ādi Parva), the vibhaga hubs, the launch languages, and the Bala Chetana and Yuva Chetana program pages.

3. **V1.1.** It adds Myths and Facts after the review board starts work. It also adds Dharma Lessons linked to Vidya courses, the Ramayana, a seva-hour log and Mahagathe Things checkout.
4. **V2.** It adds the Bala Chetana parent view and the Yuva Chetana cohort space. It also adds video (only if necessary), bedtime stories, games for children, and the Shiva Purāṇa or the Pāśupata texts. The team decides about Saptagita before V2 (D-27).

Next calls

Make these decisions in this order. Each decision unblocks the next.

- [ ] Name the content authority and the editorial board (D-21). No content can go live without them.
- [ ] Approve the names, titles and spelling (D-13).
- [ ] Choose the launch languages (D-22).
- [ ] Ask the teachers for the Mandala rules (D-23) and the access rules (D-24).
- [ ] Confirm the 80G and FCRA status (D-25).
- [ ] Make the go or no-go call for the Abhyudaya beta (D-26). Make this call soon, because only six weeks remain.
- [ ] Set the success targets (D-28).
- [ ] Name one owner for each vibhaga hub.
- [ ] Order content for the first 90 days: about 90 Guru Vākyams, 1 free practice and 10 episodes.

Part B — Users and success targets

Part B gives the detailed requirements for the design, build and test teams. Part A has priority if Part B disagrees with it.

Users

User	Main job in the app	Main features	Release
Enrolled sādhaka	Practise every day and complete a Mandala	Samatha, Dhyānbāri, Mandala, reminders	Beta, V1

User	Main job in the app	Main features	Release
New seeker	Try one practice and read daily wisdom	Free Samatha practice, Guru Vākyam, Parampara	Beta
Yuva Chetana student	Continue learning after class	Mahabharata episodes, Q&A, events	V1
Bala Chetana parent	Find classes and register a child	Program page, events, consent	V1 (parent view: V2)
Devotee abroad (NRI)	Stay connected and give dāna	Guru Vākyam, events, donations	Beta, V1
Volunteer	Find seva and sign up	Vibhaga hubs, volunteer form	V1
Vibhaga head or editor	Publish events and content	CMS, review workflow	Beta, V1

Success targets (proposed, D-28)

The team sets the final numbers. The numbers below are examples to start the discussion.

Measure	Definition	Example target, first 90 days of V1
Installs	App installs on Android and iOS	5,000
30-day retention	Users who open the app on day 30	25%
Practice	Users who complete one Samatha session	40% of active users
Mandala starts	40-Day Mandalas started	500
Registrations	Event registrations through the app	1,000
Trust	Published items with an approved source	100%

Content and authenticity rules

These rules apply to all content in the app. The CMS must enforce them before an item can be published.

C-1 Approval. The content authority (D-21) approves all teachings, practice instructions and lineage information. An editor cannot approve their own work.

C-2 Sources. Each item records its source, its edition and its review date.

- Mahabharata: the BORI critical edition only. Do not use other recensions or folk additions.
- Ramayana: the Vālmīki Rāmāyaṇa critical edition (Oriental Institute, Baroda).
- "Vedic" content: the Saṃhitās, Āraṇyakas or Upaniṣads only, after the team defines the lesson scope (D-19).

C-3 Own words. Mahagathe writes its own Itihasa text. The steps are:

1. A writer reads the BORI adhyāyas. The writer can use the Debroy translation to understand the text, but does not copy from it.
2. The writer writes the episode in their own words.
3. The writer tags each section with its range, for example Ādi 1.1–15.
4. A second reviewer compares the episode with the critical edition.

Get legal advice before the app quotes ślokas or uses translated text.

C-4 Teaching and paraphrase. The app shows a verbatim teaching and a paraphrase differently. It shows the Mahamuni's name only when the source is verified.

C-5 Names and spelling. Use IAST in Roman script. Use the approved spellings in D-13. Write the Mahamuni's name and titles in the form that the content authority approves.

C-6 Format. V1 content is text and approved practice audio only. Videos stay on YouTube. Do not machine-translate scripture and show it as a verified teaching.

C-7 No claims. Do not promise health, spiritual or material results from a practice, a product or a donation.

C-8 Content plan. Each content type has a named owner and a monthly quantity. For launch, the team needs about 90 Guru Vākyams, 1 free practice and 10 Mahabharata episodes. The about 200 posts in the Wisdom section of the website are the first source for Guru Vākyams.

Functional requirements

P0 means the release cannot ship without the requirement. P1 means the requirement is planned for that release. P2 means a later release. The "v0.2" column links each row to the old register.

Home

ID	Requirement	Pri.	Release	v0.2
H-01	Show the daily Guru Vākyam (text) at the top of Home	P0	Beta	MAH-11
H-02	Show a one-tap shortcut to today's Samatha practice	P0	Beta	MAH-11
H-03	Show the active Mandala day and progress, only if a Mandala is active	P0	V1	MAH-11
H-04	Show the next three events, each with a register button	P0	Beta	new
H-05	Show a greeting for the local time of day. Use a general greeting if the name is not known	P1	V1	MAH-10
H-06	Show a "Small Step" for the day. Never show a religious or physical step as mandatory	P1	V1	MAH-12
H-07	Show a resume card for an unfinished episode	P1	V1	MAH-11
H-08	Show a festival card on approved dates. Do not show it during practice audio	P1	V1	MAH-13
H-09	Link to the Parampara page	P0	V1	MAH-44

Wisdom

ID	Requirement	Pri.	Release	v0.2
W-01	List published Guru Vākyams by theme (work, family, conduct, inner life)	P0	Beta	MAH-14, 15

ID	Requirement	Pri.	Release	v0.2
W-02	Show each Vākyam with its title, text, simple meaning and source	P0	Beta	MAH-16
W-03	Show a paraphrase label when the text is not verbatim	P0	Beta	MAH-14
W-04	Let users share a Vākyam as a branded image card (WhatsApp, Instagram)	P1	V1	MAH-14
W-05	Let users report a wrong source or a wrong text	P0	Beta	MAH-16
W-06	Show Mahabharata seasons by parva, with published episode counts	P0	V1	MAH-21
W-07	Show each episode as text, with its BORI range and a reflection section	P0	V1	MAH-22
W-08	Save the reading position and resume from it	P0	V1	MAH-22
W-09	Show Q&A for each episode. Never shame a wrong answer	P1	V1	MAH-25
W-10	Add the Ramayana with the same structure as the Mahabharata	P1	V1.1	MAH-23, 24
W-11	Add Myths and Facts. Show the evidence status and, separately, what the tradition teaches	P1	V1.1	MAH-19, 20
W-12	Add Dharma Lessons linked to Vidya courses	P1	V1.1	MAH-17, 18
W-13	Link out to the YouTube channel and the Dharma Speaks podcast	P1	V1	new
W-14	Search published Wisdom content. Accept spelling and transliteration variants	P1	V1	MAH-52

Sādhanā

ID	Requirement	Pri.	Release	v0.2
S-01	Give all users one free introductory Samatha practice with guided audio	P0	Beta	new

ID	Requirement	Pri.	Release	v0.2
S-02	List the four Samatha practices: Attahasa, Nischara Dhyana, Samatha Kriya, Mahagathe Mantra	P0	V1	MAH-27
S-03	Show each practice's approved description and preparation notes before it starts	P0	V1	MAH-27–31
S-04	Show restricted guides, audio and files only to enrolled users. The server checks access	P0	V1	MAH-33–35
S-05	Show a "how to enrol" route to users who are not enrolled	P0	V1	MAH-27, 32
S-06	Show the Dhyānbāri resources for enrolled users	P0	V1	MAH-32
S-07	Play audio with play, pause, seek and resume. Do not start audio automatically	P0	Beta	MAH-34
S-08	Let a user start a 40-Day Mandala after they read its rules	P0	V1	MAH-36
S-09	Record one completion for each day. The server sets the date	P0	V1	MAH-37
S-10	Show a 40-cell grid, the days completed and the current streak	P0	V1	MAH-38
S-11	Show a group count (for example, sittings completed this Mandala). Show no ranking	P0	V1	MAH-39
S-12	Apply the Mandala rules that the teachers set (D-23)	P0	V1	DEC-09–11
S-13	Send practice reminders at the time the user selects	P0	V1	MAH-41

Sangha

ID	Requirement	Pri.	Release	v0.2
G-01	Show the Parampara page: the Mahamuni, the lineage and the dīkshā milestones	P0	V1	MAH-44

ID	Requirement	Pri.	Release	v0.2
G-02	Show About Mahagathe and official contact details, including WhatsApp	P1	Beta	MAH-43
G-03	Show an events calendar. Each event has a date, place or link, eligibility and a register button	P0	Beta	MAH-45
G-04	Show a hub for each vibhaga with the same template: about, head, events, content, volunteer, donate	P0	V1	new
G-05	Show pathway pages for Bala Chetana, Yuva Chetana and Dhyanodaya	P0	V1	MAH-46
G-06	Let users apply to volunteer for a vibhaga. Ask for consent first	P1	V1	MAH-47
G-07	Take donations by UPI. Show the amount and purpose before payment. Show the result after payment	P0	Beta	MAH-48
G-08	Block foreign-currency donations unless the trust has FCRA registration	P0	Beta	MAH-48
G-09	Issue 80G receipts if the trust has 80G registration	P1	V1	MAH-48
G-10	Show Dharma Bandhu membership sign-up	P1	V1	new
G-11	Sell the Pāśupata Shaivism book, Prārthanā Pustakam and Rudrākṣas. Make no outcome claims	P2	V1.1	MAH-49
G-12	Log seva hours for volunteers	P2	V1.1	new
G-13	Give a parent view for Bala Chetana and a cohort space for Yuva Chetana	P2	V2	MAH-46

Profile and account

ID	Requirement	Pri.	Release	v0.2
P-01	Let guests read public Wisdom without an account	P0	Beta	DEC-02
P-02	Let users sign in with a phone OTP	P0	Beta	MAH-07

ID	Requirement	Pri.	Release	v0.2
P-03	Collect a display name and an age band. Explain why before the user submits them	P0	Beta	MAH-06
P-04	Get verifiable guardian consent before the app processes data of a user under 18	P0	Beta	MAH-06
P-05	Let users choose interests and a role (sādhaka, student, parent, volunteer, donor)	P1	V1	MAH-09
P-06	Let users turn each notification type on or off	P0	Beta	MAH-42
P-07	Let users choose the interface language	P1	V1	MAH-53
P-08	Let users delete their account and get a copy of their data	P0	V1	MAH-08

Admin and CMS

ID	Requirement	Pri.	Release	v0.2
A-01	Let editors create drafts. Each item has a type, a source and a status	P0	Beta	MAH-50
A-02	Use the states draft, in review, approved, published, archived	P0	Beta	MAH-50
A-03	Require approval by a reviewer who is not the author	P0	Beta	MAH-50
A-04	Schedule publishing and unpublishing	P0	Beta	MAH-50
A-05	Keep versions and let an admin go back to an approved version	P0	V1	MAH-50
A-06	Keep a source register: book, edition, range, licence status	P0	Beta	MAH-51
A-07	Let each vibhaga head edit their own hub and events, with review	P0	V1	new
A-08	Let authorised staff grant and remove enrollment, with an audit log	P0	V1	MAH-33

Technical and non-functional requirements

Stack

- **App:** React Native, one codebase for Android and iOS (D-01). Use over-the-air updates for small fixes, so that the team does not need a store release for each one.
- **Backend:** a managed backend with low running cost. It handles accounts, entitlements, Mandala records and payments. The server enforces all access rules.
- **Content:** a headless CMS with the workflow in A-01 to A-08.
- **Payments:** an Indian payment provider that supports UPI. The app never stores card data.
- **Notifications:** push notifications. WhatsApp reminders for events are a possible later option.

Targets (proposed)

Area	Target
Launch time	Warm launch to interactive ⩽ 2 s (P95) on the reference devices
API reads	P95 ⩽ 1 s under the agreed load
UI response	Local actions respond within 300 ms (P95)
Availability	Backend ⩾ 99.9% each month, planned maintenance not counted
Stability	⩾ 99.5% crash-free sessions
Accessibility	WCAG 2.2 AA where applicable. Test with screen readers and large text
Security	TLS in transit. Encrypt sensitive data at rest. Least-privilege access. Audit logs
Privacy	Comply with the DPDP Act 2023. Collect minimum data. Get consent. Delete data on request. Protect children
Languages	Unicode for Devanagari and Telugu. All text in locale files. Stable content IDs across languages

Area	Target
Offline	Show cached content offline. Retry saves safely. Never write a record twice
Media	Seek, pause and resume. Handle interruptions. Never expose a restricted media URL

Standard checks for every screen

These 10 checks replace the cross-cutting IDs -11 to -20 of the v0.2 register. QA applies them to each screen, API and data item.

1. **Access:** an unauthorised user cannot open gated actions or private data.
2. **Loading:** the screen shows a loading state during slow operations.
3. **Empty:** an empty screen explains why it is empty and gives a next step.
4. **Failure:** a failure shows a clear message and a safe retry, with no duplicate writes.
5. **Accessibility:** labels, focus order, contrast, text size and touch targets work.
6. **Layout:** no clipped text and no side scroll at supported sizes.
7. **Privacy:** the screen shows and logs only necessary data.
8. **Analytics:** events use approved names, need consent and contain no private data.
9. **Lifecycle:** draft, archived and withdrawn content never shows to the public.
10. **Tests:** positive, negative, boundary and recovery tests link to the requirement ID.

The full engineering lists from v0.2 (MAH-54 to MAH-62) stay valid as the build standard. See the traceability table.

Data entities and permissions

The fields are examples. The build team sets the final schema.

Entity	Example fields	Who can read	Who can write
User profile	user_id, display_name, age_band, role, consent_version, timezone, language	The user	The user; admin for corrections
Guardian consent	user_id, guardian_contact, consent_time, consent_version	Admin	System on consent

Entity	Example fields	Who can read	Who can write
Content item	content_id, type, title, body, language, source_id, rights_state, status, published_at	Public when published	Editor; reviewer approves
Source record	source_id, book, edition, range, licence_status, review_date	Editors	Editors
Guru Vākyam	text, verbatim_or_paraphrase, meaning, source_id, theme	Public	Editor; reviewer approves
Itihasa episode	series, season (parva), episode, order, BORI range, status	Public when published	Editor; reviewer approves
Practice	practice_id, access_rule, guide, audio_id	Public or enrolled, by rule	Content authority
Enrollment	user_id, program_id, status, granted_by, expiry	The user; admin	Authorised teacher or admin
Mandala	mandala_id, user_id, start_date, day completions, audit log	The user; teacher for own sādhakas	System on a valid completion
Event	event_id, vibhaga, title, date, place or link, capacity, status	Public	Vibhaga head; reviewer approves
Registration	event_id, user_id, status	The user; event owner	The user; system
Vibhaga hub	vibhaga_id, head, about, links	Public	Vibhaga head; reviewer approves
Donation	donation_id, amount, currency, purpose, provider_ref, receipt_ref	The donor; finance admin	Payment provider callback
Notification	template, audience, schedule, delivery log	Admin	Admin

Acceptance scenarios

Each scenario uses the form Given / When / Then. A release passes only when all of its P0 scenarios pass.

ID	Given	When	Then
T-01 Guest	A new user with no account	The user opens the app	Home and public Wisdom are available. The app asks for sign-in only for practice, events and donations
T-02 Child	A user who selects an age band under 18	The user tries to finish sign-up	The app stops and asks for guardian consent. It stores no other data before consent
T-03 Free practice	Any user	The user taps the Samatha shortcut on Home	The free practice opens. Audio starts only when the user taps play
T-04 Restricted audio	A user who is not enrolled	The user requests a restricted file by link or by API	The server refuses. No media URL is exposed
T-05 Mandala double tap	A user with today's practice complete	The user taps complete again, or the network retries	There is one record. The count goes up once
T-06 Midnight	A user near midnight or in a different time zone	The user submits a completion	The server applies the D-23 rules and writes an audit record
T-07 Group count	100 users complete today's practice	Any user opens the Mandala screen	The group count includes all 100. No names or ranks show
T-08 Source check	A Guru Vākyam without an approved source	An editor tries to publish it	The CMS blocks publication

ID	Given	When	Then
T-09 Own approval	An editor who wrote an item	The editor tries to approve it	The CMS refuses
T-10 Withdrawal	A published item that an admin withdraws	The app refreshes	The item no longer shows to the public
T-11 Foreign donation	A trust without FCRA registration	A user selects a foreign currency	The app does not accept the donation and explains why
T-12 Event registration	A published event with free places	A signed-in user taps register	The app confirms. The event owner sees the registration
T-13 Notifications	A user who turns off reminders	The scheduler runs	The user gets no reminder. No duplicate sends occur
T-14 Large text	Large system text and a screen reader	The user goes through any P0 flow	All controls are reachable and labelled. No text is clipped

Traceability to the v0.2 register

The v0.2 register (1,320 IDs in 66 modules) remains the detailed checklist. The table shows how each module group changes in v0.3. Update the Excel register to match.

v0.2 modules	Area	Change in v0.3	New IDs
MAH-01–04	Foundation, brand, navigation	Kept. Five tabs proposed. Spelling standard added	D-13, D-14, C-5
MAH-05–09	Onboarding, sign-in, profile, interests	Kept. Guest access, phone OTP, DPDP consent added	P-01 to P-08
MAH-10–13	Home	Changed. Samatha shortcut and events added. Festivals now P1. No pañcāṅga	H-01 to H-09

v0.2 modules	Area	Change in v0.3	New IDs
MAH-14–16	Guru Vākyam	Kept. Text only. Spelling corrected from "Vakhyam"	W-01 to W-05
MAH-17–18	Dharma Lessons and Exercises	Moved to V1.1. Lesson scope defined first	W-12, D-19
MAH-19–20	Myths and Facts	Moved to V1.1. Tradition's teaching shown separately	W-11
MAH-21–25	Mahabharata, Ramayana, Q&A	Kept. Own text with BORI citations. Ramayana in V1.1	W-06 to W-10, C-3
MAH-26–31	Yoga tab and Samatha practices	Kept. Free public practice added. Tab renamed Sādhanā	S-01 to S-07
MAH-32–35	Dhyānbāri, entitlements, audio, files	Kept. Teachers grant access	S-04 to S-06, A-08
MAH-36–38	Mandala	Kept. Rules set by the teachers	S-08 to S-12
MAH-39	Leaderboard	Replaced by a group count	S-11
MAH-40–42	Notifications	Kept	S-13, P-06
MAH-43–45	About, Parampara, Programs	Changed. Parampara now P0. Events calendar added	G-01 to G-03
MAH-46	Bala and Yuva Chetana	Program pages in V1. Parent view and cohort space in V2	G-05, G-13
MAH-47–49	Volunteer, Donations, Things	Changed. UPI, FCRA rule, 80G added. Things in V1.1	G-06 to G-12
MAH-50–53	CMS, sources, search, languages	Kept. Vibhaga editor role added	A-01 to A-08, W-14, P-07
MAH-54–62	Engineering	Kept as the build standard. React Native named	Technical section
MAH-63	Gurudev Shorts	Moved to V2 or later. Videos stay on YouTube	D-04, W-13

v0.2 modules	Area	Change in v0.3	New IDs
MAH-64–66	Bedtime stories, Shiva Purāṇa, kids' games	V2	D-30
—	Vibhaga hubs, events, Dharma Bandhu	New	G-03, G-04, G-10
—	Cross-cutting checks (-11 to -20)	Kept as the 10 standard checks	Technical section
